

## LTE Adapters for Intel® NUC Chassis Element or NUC Innovations Expansion Elements

It is now possible to add an LTE connection solution to the Intel NUC Rugged line of computers. Three different LTE solutions are available to meet the data speed requirements of the end applications. The same LTE adapters are supported for the traditional model of NUCs (Tiger Canyon, etc.) and every model of NUC Innovations Expansion Elements. All LTE adapters are carrier end device certified allowing the LTE equipped system to be provisioned onto a carrier network with no additional testing or certification.

### LTE Modem Specifications

Global 4G LTE CAT M1 NB-IoT with 2G fallback Carrier End-Device certified Dual antennas included Multi-carrier support on a single device Throughput: LTE-M 589Kbps Download/1.2Mbps Upload	North America 4G LTE CAT 1 AT&T, T-Mobile and other PTCRB approved networks Carrier End-Device certified Dual antennas included Multi-carrier support on a single device Throughput: 10Mbps Download/5Mbps Upload	North America/Europe/APAC 4G LTE CAT 4 with 3G Fallback Carrier End-Device certified Dual antennas included Multi-carrier support on a single device Throughput: 150Mbps Download / 42.2Mbps Upload

Order Code	Description
90001-00	Global 4G LTE CAT M1 NB-IoT Adapter with dual antennas (Note 1)
90002-00	North America 4G LTE CAT 1 Adapter with dual antennas (Note 1)
90003-00	North America 4G LTE CAT 4 Adapter with dual antennas (Note 1)
90004-00	Intel CMCR1ABA Internal LTE mount with replacement rear panel with antenna mounts
90005-00	Intel CMCR1ABB Internal LTE mount with replacement rear panel with antenna mounts
90006-00	EU 4G LTE CAT 4 Adapter with dual antennas (Note 1)
90007-00	APAC 4G LTE CAT 4 Adapter with dual antennas (Note 1)
90012-00	Intel NUC Replacement Lid for LTE adapter (Tiger, Panther, Frost, Provo Canyon models)

Note 1: No installation kit required for NUC Kit NUC8CCHKR or NUC Innovations Expansion Elements

Note 2: Intel CMCR1ABC Element requires a NUC Innovations Expansion Element to support LTE adapter
